Breastfeeding supplies and support for new mothers

Radiology Partners is happy to cover women's preventive care services, without cost-sharing (copayment, coinsurance, or deductible) as long as they are received in the health plan's network. This includes breastfeeding supplies for new mothers.

How to obtain a breastpump:

As a member of Anthem, you may order (at no cost to you) an electronic breast pump by contacting a participating doctor or approved breast pump supplier up to 30 days before your delivery date or 365 days after your delivery date.

- For a list of participating breast pump suppliers, call the toll-free phone number on your health plan ID card or go to MyAmeriBen.com for a list of network suppliers.
- A breast pump will be sent directly to you.
- The doctor or breast pump supplier will bill us directly for reimbursement.
- No prescription is needed when contacting an approved breast pump supplier.

Limitations/requirements:

- The benefit is limited to 1 breast pump per birth.
- For a birth with multible babies, only 1 breast pump is covered.
- Breast pump purchased at retail stores are not eligible for reimbursement.
- Under the healthcare reform law, only breast pumps received from a participation supplier are covered at 100 percent.
- A non-participating supplier is Durable Medical Equipment (DME) supplier, not a retail store.

*Out-of-network preventive services including breast pumps rented or purchased out-of-network will not be covered.

Lactation support and counseling

Lactation support and counseling are covered without cost-share when performed by a participating doctor or health care professional and billed according to our Preventive Care Services Coverages Determination Guideline. Various participating clinics and other providers, including many OB/GYNs and pediatritions, may provide lactation support and counseling. The health reform law does not require services outside of our network to be covered without cost-share.
