Frequently Asked Questions

What are some common conditions 98point6 can treat?

Our care team, including board-certified physicians, offers timely diagnosis and treatment of more than 400 common conditions, including COVID-19 concerns, cough/cold and flu, muscle sprains and strains and more. This includes outlining care options and ordering of necessary prescriptions, lab tests and imaging. If our doctor believes an in-person visit is in your best interests, they will provide you with the reassurance and steps you need to continue confidently on the right path to health.

Additionally, our care team may provide guidance to better understand and navigate issues related to chronic conditions, such as hypertension and diabetes, and can work with you and your in-person provider on ongoing monitoring and management as needed. 98point6 physicians can prescribe refills of essential medications and answer questions regarding medications and side effects.

98point6 is not for emergencies. This service does not address life-threatening conditions. If you're experiencing an emergency, please call 911.

Who can use 98point6?

How much does it cost?

How can members access care through 98point6?

Members can use their iOS or Android mobile device to download the app from the App Store or Google Play. Older mobile phone versions (such as flip phones) cannot be used to access 98point6.
